cheat sheet

# GIT UNDO

## 1 · STASH

adhura code side mein

| | |
|---|---|
| `git stash` | changes side mein rakho |
| `git stash list` | saved stashes dekho |
| `git stash pop` | wapas lao + stash hatao |
| `git stash apply` | wapas lao, stash rakho |

## 2 · RESET

sirf local commit

| | |
|---|---|
| `git reset --soft HEAD~1` | commit undo, changes staged |
| `git reset HEAD~1` | commit undo, changes unstaged |
| `git reset --hard HEAD~1` | changes bhi gayab ⚠ |

## 3 · REVERT

push ho chuka hai

| | |
|---|---|
| `git revert <commit_id>` | galti reverse, history safe |
| `git revert HEAD` | last commit reverse |
| `git push` | revert commit bhej do |

## BONUS

chhote bachaav

| | |
|---|---|
| `git commit --amend` | last commit fix (push se pehle) |
| `git restore <file>` | file ke changes discard |
| `git reflog` | khoye commits dhundo |

**Local → reset · Pushed → revert · Pata nahi → stash**
